An unpublished gold medal by

EHRENREICH HANNIBAL

Relating to the Treaty of Vienna 1731

obv. GEORGIVS · II · D.G. MAG · BRIT ., &c., bust to left, E.H. below, *rev.* TEMPERAT AESTVS, view across country, with rainbow and clouds above, in exergue:—FOEDVS VINDOBON : D. XVI MART : MDCCXXXII.

The history of the medal is the following :

In 1731 George II recognized Maria Theresia as Empress of Austria. In recognition of this fact Austria promised to wind up the East India Co., which traded with Dutch East Indies to the disadvantage of England, Holland and Spain.

To confirm this arrangement a treaty was concluded in 1732 between England and Austria, and in commemoration thereof three medals were made by Ehrenreich Hannibal—one for George II, one for the King of Spain and one for Maria Theresia. The latter is the medal attached hereto and has been brought into circulation by some Austrian Crown-Prince who, owing to shortness of funds, disposed thereof.
